

## POST-IT!! A new event by JDRF!

### “WALK TO CURE DIABETES”, presented by SuperPages

April 27, 2004

Dearest

At this time of year, I usually send you a letter about the Juvenile Diabetes Research Foundation “Cyclothon”. This year, JDRF will **not** be holding their annual cyclothon event. Due to the unfortunate rain and cold weather from the past four years, the cyclothon has become a difficult event to raise funds for Juvenile Diabetes.

This year event is called, “Walk to Cure Diabetes”. It is taking place on Sunday, May 30<sup>th</sup>, 2004 at Jean-Drapeau Park on St-Helene Island. An estimated 2500 people from families, employees of companies, sponsors and students are expected to participate in a 5-kilometre walk. The event is geared ideally towards groups, families and children. Along with the walk there will be activities for children such as, an animated kids centre, a kids show, and a family BBQ. It promises to be a lot of FUN!

At JDRF we are committed to find a cure for diabetes and its complications. I hope that you will consider sponsoring me for this event and in doing so together we will help find a cure for this disease. As well, please consider joining us this year, as I am certain, rain or shine, it will be a new and exciting event. If you are interested in coming to the walk, please fill out the enclosed form and bring it to the event for parking identification purposes.

For easy sponsoring, please feel free to call Elsa Desjardins of JDRF at 744-5537 ext. 231 or fax your sponsor sheet to JDRF at 744-0516.

Many thanks for your past involvement and for your future consideration.

“I’LL KEEP YOU POSTED”! Love,

Suzie Reisler Litwin
